

American Community Survey (ACS) Data 2006-2010 : (5 Year Estimates)

Pop-Facts provides, what Nielsen-Claritas describes as, "demographic estimates and projections produced each year by Claritas. Estimates are data prepared for current year, and projections (sometimes called forecasts) are prepared for dates five years in the future. Pop-Facts is produced each year for many geographic levels including national, state, county, place (city/town), MCD (Minor Civil Division), census tract, and block group. Data are also available for commonly used areas such as metropolitan areas, ZIP Codes, and media areas such as DMAs. Because they are produced for small areas, Pop-Facts can be easily aggregated to custom geographic areas specified by the user."
